

# Twin Phase Concept Peel Off Mask

Crédit photo : Photothèque Setalg

## Description

Effortless: Setalg offers the first and unique ready to use peel off mask concept.

- Ultra easy to use
- Super fast (without utensils): 50 % time-saving
- Effective with a perfect homogeneous blend

This mask is a marine complex based on alginates extracted from Laminaria, which provide its natural smooth texture. Once the sachet is gently squeezed on both sides, powder and activator perfectly blend together to make a unique peel off mask.

## Applications

### + Concept

- Dosage and texture perfectly mastered
- Extremely easy to use
- Time saving: preparation in less than 1 minute
- Customizable concept (active, colour, fragrance...)

### Properties

#### Powder

Our formulation has the special physico-chemical and biological properties of alginates which give creaminess to the mask and help make the skin soft.

#### Activator

The activator helps boosting the active's action and mastering the gelling parameters. The synergy between powder and activator allows optimal efficacy of the mask.

### Recommendations

- Press delicately both sides of the sachet with the fingertips to mix powder and activator (20g of powder with 40g of activator).
- Mix vigorously (less than 1 minute) to obtain a smooth and homogeneous texture.
- Apply the mask immediately in a semi-thick layer on a cleansed skin.
- The mask will dry within 6 minutes approximately.
- Leave the mask in place for at least 15 minutes, it then peels off easily without leaving any trace.

## Characteristics

Aspect	Powder / Solution
Colour	Customizable
Fragrance	Customizable
Shelf life	24 months
Storage	In a clean and dry place, away from sunlight, at room temperature (20-25°C)
Packaging	Exclusive sachet (powder 20g/activator 40g)
Customs tariff number	-

## Specifications

Criteria	Specification	Reference
Aerobic micro-organisms obtained at 30°C	≤ 1000 CFU/g	Cosmetics GMP
Yeast	≤ 100 CFU/g	Cosmetics GMP
Mould	≤ 100 CFU/g	Cosmetics GMP
Pathogens	None	Cosmetics GMP

## Customized formulation

Setalg can develop your own formulations by choosing your ingredients, fragrances, colours and actives.
